

my\_rand\_gen< std::complex  
< double > >

test\_1

my\_rand\_gen< double >

```
graph LR; A["my_rand_gen< std::complex< double > >"] --> C["my_rand_gen< double >"]; B["test_1"] --> C;
```

The diagram illustrates a relationship between three boxes. On the left, there are two boxes: the top one contains the text 'my\_rand\_gen< std::complex< double > >' and the bottom one contains 'test\_1'. On the right, there is a single box containing 'my\_rand\_gen< double >'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the right box, indicating a mapping or relationship from both left boxes to the right box.
