

SEMBLE::recast

SEMBLE::diagAsym

SEMBLE::SembleMatrix  
::setElement

```
graph LR; A[SEMBLE::recast] --> C[SEMBLE::SembleMatrix::setElement]; B[SEMBLE::diagAsym] --> C;
```

The diagram illustrates a relationship between two functions and a class method. On the left, two white rectangular boxes with black borders contain the text 'SEMBLE::recast' and 'SEMBLE::diagAsym'. On the right, a gray rectangular box with a black border contains the text 'SEMBLE::SembleMatrix' followed by '::setElement' on a new line. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'SEMBLE::recast' and 'SEMBLE::diagAsym' interact with or utilize the 'SEMBLE::SembleMatrix::setElement' method.
