

SEMBLE::operator==

```
graph LR; A[SEMBLE::operator==] --> B[SEMBLE::SembleVector::getB]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box has a light gray fill and a black border, containing the text 'SEMBLE::operator=='. The right box has a white fill and a black border, containing the text 'SEMBLE::SembleVector' on the top line and '::getB' on the bottom line.

SEMBLE::SembleVector
